526 titles as part of your subscription

The transmission and development of soft skills is crucial to promote a culture of balance, self-examination, and best practice in the health sciences. Future practitioners often feel that such learning is neglected, and suggest that instruction should focus on principles and guidelines that will help them deal with the complex situations that arise in the workplace. Our Health Science collection addresses this need and provides content that delves into fundamental concepts of Medicine, Nursing, Public and Community Health, and much more!

Videos available

Medicine	95	Public and Community Health	120
Nursing	67	Radiology	1
Nutrition and Dietetics	49	Sport Science and Physiotherapy	32
Psychology	162	**Total**	526

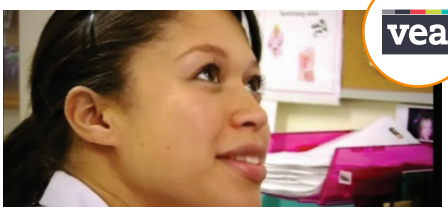
2013 | 30 min | AUS

Sustainable Practices in Childcare Centres

Filmed at an industry-leading childcare centre, that specialises in early childhood education we explore practical ways that childcare centres can create and implement a sustainable environmental focus to their work.

2014 | 14 min | AUS



Ethics and Legal Concepts in Nursing - Introduction

This program explores ethics in nursing, with reference to the Australian Code of Nursing Ethics. It defines ethics, and explains why it is critical that nurses know about ethics and the standards of behaviour that are demanded by their profession.

2009 | 30 min | AUS

Communication Skills For Nurses

This essential program employs a dynamic combination of dramatised scenarios, real footage on the ward, and expert comment from health professionals, to get to the heart of communication in a health care setting.

2011 | 22 min | AUS

Pain Management in the Elderly

This program considers all of these issues and looks broadly at pain management in the elderly. Three pain management experts share their insights with us, examining what pain is, assessment methods and common treatments available.

2010 | 28 min | AUS

Cultural Diversity in Nursing Practice

To deliver the most appropriate and effective medical treatment to such a broad spectrum of people, nurses must have an understanding of the way different cultures interact. Framed as a discussion forum, this program offers a starting point for training in transcultural nursing.

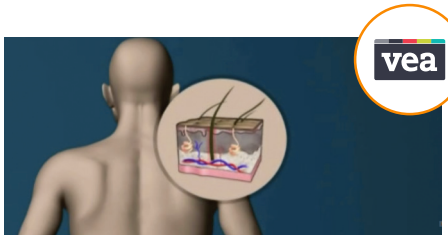
2010 | 23 min | AUS

Health Assessment in Nursing: Introduction

This entertaining program produced in a style similar to the sitcom 'Scrubs' is designed to provide the viewer with the foundation knowledge required to conduct a thorough health assessment.

2009 | 41 min | AUS

Popular titles included in this collection



Wound Management - A Nurse's Guide

In this program we examine skin anatomy, the classification of wounds, wound procedures, wound dressings, and documentation. Knowledge in each of these areas will allow nurses and nursing assistants to make well informed decisions about wound care.

2010 | 20 min | AUS

Delirium, Dementia and Depression

Depression is common in elderly people and often presents with symptoms similar to dementia or delirium. This program defines these conditions by detailing symptoms and speaking to medical experts.

2010 | 29 min | AUS

Alzheimer's Disease – Is It Delirium or Dementia?

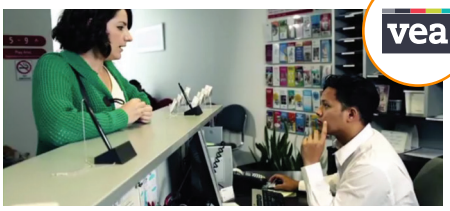
Alzheimer's disease is a progressive, degenerative disorder that attacks the brain's nerve cells resulting in loss of memory, thinking and language skills and behavioural changes.

2012 | 35 min | USA

The Principles of Person Centred Care: Home Care One

This programme introduces the basic principles of person centred care, exploring values, individuality, privacy and independence and many other vital aspects of excellence in care. With clear examples and great information, this is a very practical and important health care resource.

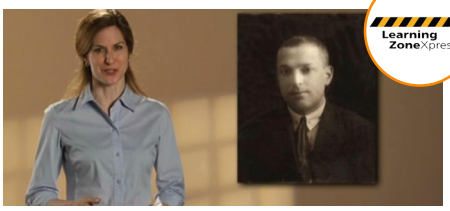
2007 | 36 min | UK



Behaviours of Concern

This collection of short programs outlines common examples of difficult and challenging behaviours as well as providing practical strategies for safe, effective responses.

2013 | 21 min | AUS



Child Development Theorist: Freud to Erikson to Spock

This program is an entertaining and enlightening view of the major child development theories, how the theories differ, and how more than one approach can be beneficial. Historical footage and photos are combined with candid documentary footage from day care centers.

2009 | 22 min | USA
