Arts and Recreation Collection

185 titles as part of your subscription

For over a decade, we have been providing educational videos to help Australian educators create engaging lessons and improve learning outcomes. With the recent acquisition of VEA's video collection, we now offer thousands of titles designed for higher education. We also curate the best educational videos from the world's leading content providers to give TAFEs **one collection for Arts and Recreation** that will continue to grow over the years.

Popular titles included in this collection

Featured series

The Body in Motion

This Australian-made series is packed full of action and insight into the inner workings of the human body. The series begins with a broad overview of the musculoskeletal and cardio-respiratory systems targeted at both junior students and senior students needing a quick refresher on the basics.

Titles included in this series:

- An Introduction
- Influences on Movement
- Fitness, Skill and Training

Units of Competency: SISFFIT305A, SISFFIT301A, SISFFIT304A

2010 | 75 min | AUS

Design in the Real World – Logos

Companies and other organisations rely on logos to convey information and create brand recognition. Their design is critical – time, creativity, expertise and often, vast sums of money, are invested into their creation – but what are the principles and elements of excellent logo design?

2015 | 18 min | AUS

Sports Injury Prevention and Assessment

This program provides a comprehensive guide to the issue of sports injury; its prevention where possible and successful treatment when prevention fails

Units of Competency: SISSSPT201A, SISSSPT302A

2005 | 28 min | AUS

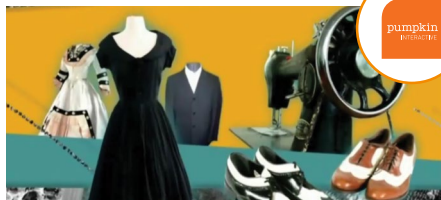

Textiles: Mass Production

Showing the very latest industrial techniques from around the world, this resource gives pupils a fantastic insight into textile manufacturing processes.

Units of Competency: LMTFD6009B, LMTTD6001A

2004 | 27 min | UK

Textiles: Environmental Impacts

This resource explores the environmental impact of textile production in Bangladesh, and shows how the true cost of cheap textiles is being felt by the very poorest living downstream from polluting textile factories.

Units of Competency: LMTFD6009B, LMTTD6001A

2011 | 27 min | UK

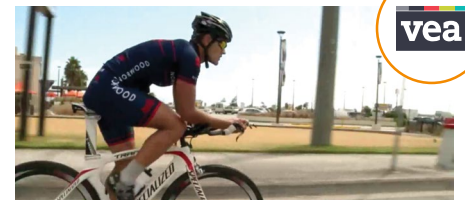

All About Textiles Series

Introducing Textiles

This program introduces students to fibres, fabrics and textiles. A brief historical overview is followed by a look at various processes and also the most recent developments.

Units of Competency: LMTFD6009B, LMTTN2003B

2003 | 23 min | AUS

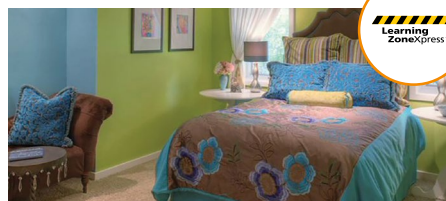

Nutrition and Hydration in Sport

The meticulous nature of a high-performance diet is highlighted throughout the program, illustrating just how far sports science has come and the constant demands the next generation of athletes will face.

Units of Competency: SISSSCO307

2012 | 20 min | AUS

Popular titles included in this collection

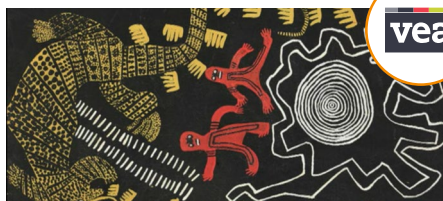

Design: All About Textiles

In this program we examine the properties of natural fibres such as cotton, flax, jute, sisal and bamboo; synthetic fibres such as nylon, polyester, rayon, acrylic and microfibres, and animal fibres such as wool and silk. We also look at fabric construction and surface designs.
